PERFORMING/DISPLAYING AT END OF SESSION PROGRAM: Yes

God isn't distant, boring, or hard to reach. He's powerful, personal, and wants you to know Him by name. In this class, participants will explore a different name of God each week - names like Jehovah Jireh (The Lord Provides), El Roi (The God Who Sees), and Abba (Father). These aren't just ancient words, they're real-life answers to your biggest questions:

- Who is God really?
- Does He see me?
- Can I trust Him?
- What does He want for my life?

Through scripture, journaling, group convos, and creative activities, you'll connect with God in a way that's deep, honest, and personal. No churchy clichés. No pressure to be perfect. Just real moments with a real God who calls you by name. So bring your questions, your highlighters, your prayers, your doubts - and let's discover the God who's been waiting for you to call on His name.

PERFORMING/DISPLAYING AT END OF SESSION PROGRAM: Yes

Get ready for an awesome 12-week journey where you'll discover who God really is, one name at a time! Each week, we'll dive into a new name of God from the Bible and learn what it means for you. From Elohim the Creator to Jehovah Jireh the Provider to Immanuel, God With Us, you'll find out how God shows up in real ways - in your life, your heart, and your world.

- Learn memory verses that stick
- Create fun crafts
- Journal your thoughts, prayers, and discoveries
- Talk it out with friends in fun group discussions
- Grow your faith and confidence in who God is

Whether you love art, action, or just asking big questions, this class is for YOU. Come explore God's names and find out how amazing He really is!

SUPPLIES NEEDED: Pencil and highlighter beginning week 2; Costume requirements (given out once parts have been assigned) will need to be brought in by week 8

PERFORMING/DISPLAYING AT END OF SESSION PROGRAM: Yes

Join us this session for A Fairy Tale Christmas Carol! This fun, family-friendly musical gives Dickens' classic a whimsical twist, with your favorite fairytale characters stepping into surprising new roles. Watch the Big Bad Wolf as Scrooge face visits from the Fairy Godmother, Old King Cole, and the Queen of Hearts - helping him rediscover the true meaning of Christmas. Meet Cinderella, Prince Philip, Hansel, Gretel, and more in our musical holiday adventure! Participants will explore acting, singing, stage presence, and behind-the-scenes theatre elements like props, set changes, and costumes. Auditions will be held during the first week of class, and participants can choose to perform onstage, help with backstage tasks, or both. Everyone will be part of the production, though not all may receive their desired role. As we approach performance time, an additional dress rehearsal may be scheduled with plenty of notice. Participants are expected to practice at home using the scripts and listening tracks provided. A few basic costume items will be required, listed on the additional information sheet available at registration. Come be part of a joyful, Christ-centered theatre experience! Our production will take place during the End of Session Program.

MINIMUM: 4 MAXIMUM: 12

SUPPLIES NEEDED: Notebook and pen/pencil

PERFORMING/DISPLAYING AT END OF SESSION PROGRAM: No

Inspired by Charlotte Mason's educational philosophy, this class will focus on the gentle art of narration - an engaging and effective method for developing comprehension, memory, and clear expression. Each week, participants will listen attentively to carefully selected living books and then retell the story in their own words, spurring discussion. Narration helps cultivate essential skills such as critical thinking, empathy, attentive listening, and the ability to organize and articulate thoughts. This interactive format encourages meaningful participation and fosters a lifelong love of literature. Participants will be actively involved throughout the class, growing in confidence and communication.

LANGUAGE ARTS: SENTENCE FAMILY

MENTOR: Kristina Gansman (BA in Elementary Ed./Early Childhood Ed.)

AGES: 5yrs – 9yrs

SUPPLY FEE: \$15 per participant (cash only/exact change due at registration)

MINIMUM: 4 MAXIMUM: 16

SUPPLIES NEEDED: None

PERFORMING/DISPLAYING AT END OF SESSION PROGRAM: No

This class introduces young learners to the fascinating world of grammar through a unique and engaging approach: the Sentence Family! Using colorful characters and artistic expressions, participants will explore the fundamental concepts of sentence structure and the parts of speech. This class is designed to be a multi-sensory experience, combining auditory, visual, and kinesthetic learning to foster a deeper understanding of language. Each week will focus on a specific part of speech or sentence type, brought to life through the Sentence Family characters. The mentor will guide participants through the creation of these characters, explaining their roles and functions within a sentence as they are drawn.

Participants will learn to identify and understand the four types of sentences, recognize and define the nine parts of speech, develop basic drawing skills, review color recognition, enhance listening comprehension by following directions, and improve vocabulary and sentence building skills. The goal is to make learning grammar fun and accessible, fostering a love of language and a strong foundation for future literacy skills. Participants are required to treat each other and the mentor with respect, be able to copy simple words and be able to follow easy, simple step instructions when drawing.

PERFORMING/DISPLAYING AT END OF SESSION PROGRAM: Yes

As a 4-H Volunteer Leader, I love to be able to help children, and their families, learn more about all that 4-H has to offer. The goal for this class will be to complete a 4-H project that will be able to be entered into their county 4H Fair for the '25-'26 year. There are a variety of 4H projects to choose from and I will help facilitate completing at least one project. Projects range from animal education, recycling, arts and crafts, Legos, photography, floriculture and beyond! During this session, there should be time for more than 1 project to be completed. Participants may have to work on projects at home to conduct research or gather supplies needed. **Note - To be entered in the 4H Fair, your family will need to sign up to be a part of 4-H (Vanderburgh or another county), which includes a simple process and a small fee (separate from the class fee). I can provide all the information at the first class of the session.

PERFORMING/DISPLAYING AT END OF SESSION PROGRAM: Yes

There is great value in a child learning that a handicraft can be worked on for a period of time with a result of producing something of beauty that is worthwhile and useful. They teach hand-eye coordination, keep young hands busy with industry, help children to see progression in skill, and as created beings we are called to be creative. Handicrafts give an outlet to this calling. In this class we will be exploring a variety of different handicrafts, which could include (depending on interest and ability of participants): macrame, knitting, needlework, toy making, knot tying, weaving, carving, paper crafts, or beadwork. We will introduce and work on skills that the participants can use for the rest of their lives, not only to learn a hands-on skill, but to practice perseverance and working their hardest at something that may be challenging. If your child took this class in the Spring, know there may be some repeat projects. Participants should hold on to 3 projects of their choice to display at the End of Session Program. **Parent volunteers are welcome to join and help.

PERFORMING/DISPLAYING AT END OF SESSION PROGRAM: Yes

What does it really mean to take every thought captive - and how do we actually do that? This class is part 1 of 2 where participants will explore the fascinating world of the mind through the lens of biblical truth. We'll begin with a foundational look at the nervous system and the brain, then dive into the study of psychology - examining how our senses, thoughts, emotions, and behaviors are connected. This session, we will explore topics such as:

- How our brain and body respond to fear and triggers
- The power of mindset and perspective
- The connection between attention, focus, and emotional health
- Why we react the way we do and how to respond with purpose
- Tools for identifying and managing thoughts, feelings, and behaviors
- Philosophical and Biblical reflections on identity and meaning.

With weekly journaling, class discussions, and interactive activities, participants will not only uncover why they think and feel the way they do, but also how to align those thoughts with truth, anchoring their identity in Christ. Some occasional take-home assignments will be given. ***Important Notes for Parents:*** This course will include discussion on sensitive topics such as mental health disorders, suicide, and abortion from a Biblical perspective. I am a licensed paramedic, certified in mental health first aid, trained in group/individual critical incident stress, and am a part of my EMS Peer Support Team. While these subjects will be approached with care and discernment, I ask that parents ensure their participant is emotionally and mentally ready to engage in these conversations with maturity and thoughtfulness.

Our Sing & Grow in Faith class is a fun and interactive program designed for young learners, combining classic nursery rhymes with Christian values to help children learn about God's love, kindness, and the world He created. Each week, children will sing, move, and engage in hands-on activities centered around a new nursery rhyme, exploring themes like generosity, trust, and community in a way that's developmentally appropriate. Through playful learning and creativity, children will build language skills, emotional awareness, and a strong foundation of faith, while enjoying a joyful, supportive environment. We will perform a song at the End of Session Program to give families and friends a peek into our time together.

This class is designed for young learners to foster a love of reading and build essential literacy skills in a fun, engaging environment. Through carefully selected stories, hands-on activities, and interactive discussions, children will develop a strong foundation in reading comprehension, book awareness, and creative expression. This session will introduce children to the joy of reading and storytelling, develop early literacy skills, including pre-reading skills and comprehension, familiarize children with the different parts of a book, the roles of authors and illustrators, encourage active listening and participation in group discussions, and promote creativity and fine motor skills through crafts, play and hands-on activities. Participants are required to be able to sit quietly through an entire picture book, expected to participate actively in class discussions and activities and be able to treat each other and the mentor with respect.

In Hands-On Science, we study many different branches of the sciences (physical science, earth science, life science, etc.) through fun, hands-on science experiments, and model building. Most of the concepts are introduced through kid-friendly videos, books, or Power Points, and followed by an experiment or the building of a model of what we are studying. We use materials such as: multiple types of candy, clay, balloons, magnets, iron filings, paint, seeds, and many, many other materials. Following directions and listening are also stressed in this class. We constantly rotate the subjects we are learning about in Hands-On Science with new and fun activities while revisiting some favorites as well. Since this is a VERY activity-oriented class, weekly volunteers are needed to help hand out supplies and help participants (if necessary)

during projects. *(There will be an opportunity to sign-up to volunteer on Registration Day. No knowledge of the subject is required!)*

Yes, Hyped-Up is back this fall! Hyped Up-Science is Hands-On Science for older participants which will do all those “science-y” things you never have time to do at home or are a bit nervous to try! This course aims to provide participants with hands-on and lab experiences in the different branches of science: physical (chemistry, physics), life (botany, zoology, etc.), and earth (geology, meteorology, etc.). This science class is the next step up after Hands-On Science--experiments, dissections, and model-building- oh my! For those concerned about the dissection projects, please feel free to ask questions! **Dissections will be done in Weeks 11 and 12 of this class.** Since this is a VERY activity-oriented, lab-type class, weekly volunteers are needed to help hand out supplies and help participants (if necessary) during activities and experiments. *(There will be an opportunity to sign up to volunteer on Registration Day. No knowledge of the subject is required!)*

Do you wonder how Starbucks prices their products, how to find a decent used car, and why poor countries stay poor? As a participant in this class, we will be doing a non-technical introduction to the principles of economics. During the session we will look at supply-demand interactions, market failures, externalities, globalization, international trade, and comparative advantage. Participants will need to complete homework to work on skills and prepare for upcoming classes. May be using Google Classroom.

Get ready to embark on a wild journey through history! We'll tackle the Oregon Trail, where we might just lose a wagon or two—and possibly our minds. Then, we'll mine for gold during the California Gold Rush, dodging grumpy prospectors who'd probably trade their gold for a decent cup of coffee. Experience the stock market crash, where emotions run higher than a cat on a hot tin roof! And, of course, we'll uncover many other significant historical events, all while trying not to trip over our shoelaces.

In Hands-On History, we will be traveling through different periods of history with stories, fun activities, projects, and games. We begin by learning about each concept with a story, video, or Power Point and will follow it by building related model, playing a game related to that period of history, or completing a project that will bring that time period to life for the participants. This class aims to change the perception that “History is boring!” and will help participants have an appreciation for those who came before us, how we can learn from our past, and how God has been and is present in every period of history. Since this is a VERY activity-oriented class, weekly volunteers are needed to help hand out supplies and help participants (if necessary) during projects. *(There will be an opportunity to sign-up to volunteer on Registration Day. No knowledge of the subject is required!)*

Welcome to Tuttle Twins Book Club! We will be diving into 11 (12 if time allows) out of the 14 Tuttle Twins books written for elementary age students. Participants will sit cozy on the floor together while listening to a read aloud and coloring if they choose. A guided group discussion will follow. Students will be sent home with discussion questions and information about the book to allow parents to dive deeper into the topics as they see fit. The goal is to empower students with engaging stories that inspire freedom, entrepreneurship, and personal responsibility—without the political spin or media agenda, giving them tools to think critically, dream big, and become a force for good. If you want to know more about the material, I encourage you to visit TuttleTwins.com for more information. Below are the scheduled class topics:

- What are Individual Rights?
- Why are Free Markets Important?
- How Does Money Work?
- What is Protectionism?
- Should the Collective Control Us?
- Does the "Golden Rule" Work?
- Why is Socialism so Harmful?
- Can a Child Be an Entrepreneur?
- Why We Act the Way We Do
- Should We Reward Merit?
- Be Your Best Self
- What is True Education? (If time allows)

Yearbook Foundations is an academic and practical journey through journalism, photography, and design culminating in production of the C.H.O.I.C.E. yearbook for the 2025-2026 academic year. Participants will learn basics in layout design, social journalism, and both candid and posed photography along with real-life experience collecting media, writing prompts, and seeing a product from creation to print. We will spend our time together developing our knowledge of design fundamentals, general rules in photography, and the Canva Pro software. During that time, we'll use practical applications of skills learned as we outline sections, write body copy, collect photographs and media, and lay out spreads for the yearbook then proof and submit to print for families to purchase as a keepsake after the completion of the full year of both Fall and Spring sessions. We will create a slideshow from photos taken during co-op hours to display at the End of Session Program.
